220 rds of training ammunition - 30 rds of duty ammunition**

Eye & Ear Protection - Sling - Note taking materials

Suggested Materials:

Bipod - Tripod - Shooting Bags - Rifle Case - Water Bottle

Tools and Cleaning Equipment

The 8 hr Basic ATOA Low Power Variable Optic (LPVO)/ Patrol Designated Marksman Course will give the trainee insights into equipment selection, deployment, maintenance, and ballistic considerations through classroom discussion and demonstration. The live fire portions of the class will give the trainee tactics and techniques to allow them to quickly identify and accurately engage threats from arm's length all the way through the longer end of the patrol rifle's typical range. This is a single day basic class intended to give trainees insights and techniques to expand upon and grow their proficiencies in the future. An ATOA LPVO qualification COF will be issued at the end of class to allow officers to demonstrate the skills they learned in class.

Lunch will be provided free of charge

A training certificate will be issued for 8 hours.

Members from ATOA & GTOA students free of charge

Instructor: John Baggett

POC: Jeff Gammons (850) 496-0002
